SUMMARY

I'm a fourth-year ECE student at J.C. Bose University of Science and Technology, YMCA, with a strong passion for problem-solving. I've tackled **over 600 DSA questions** and specialize in web development with MERN Stack, C++, and JavaScript. Notable projects include a college treasure hunt app and a dynamic note-keeping application.

PROFESSIONAL EXPERIENCE

Backend Developer — IEEE YMCA SB

Oct 2023

Worked as a backend developer and built a website for the **"HunterXPokemon"** treasure hunt competition. Managed server hosting, ensuring seamless operation for over 750 participants, and delivered an engaging and interactive platform for the event.

EDUCATION

2021 - present	B.Tech (ECE) at J.C. Bose University of Science and Technology, YMCA	
2021	Class 12th CBSE Board	(94.8%)
2019	Class 10th CBSE Board	(90%)

PROJECTS

HunterXPokemon

[Github Repo](#)

Developed the **"HunterXPokemon"** web app with IEEE YMCA SB using **Node.js (Express.js)** and **MongoDB** for a college treasure hunt. Managed server hosting, ensuring seamless operation for **over 750 registrations**, and provided an engaging and interactive platform for participants.

Link Shrink

[Link to Demo](#)

Developed a fast and efficient URL shortener using **Vite + React** for the frontend and Supabase for the backend. Implemented Tailwind CSS for styling and Shaden for UI components, with real-time click analytics and customizable short links.

Keeper React App

[Link to Demo](#)

Designed and implemented a dynamic note-keeping web application using **React**. This app ensures efficient data management and allows users to store notes in local storage, offering a user-friendly interface for managing personal notes and reminders.

multicol

SKILLS

Languages	C++, JavaScript, Python
FrameWork	ReactJs, ExpressJS, TailwindCSS
Tools	Git, Github, Postman, Windows, MongoDB Compass, VS Code
Technologies	HTML, CSS, MySQL, MongoDB
Concepts	OOPs, DBMS, OS, Computer Networks

CODING PROFILES

Leetcode	@nishujangra27
GeeksforGeeks	@nishujangra27
